EXPERIENCE

Full-Stack Developer

Tiara Software

July 2024 – July 2026

Jaipur, India

- Architected complex **GMS** business workflows across **8+** business modules including Sales, Quotations, Memo, CRM, and Inventory – using **React.js**, **Node.js**, and **MongoDB**, supporting interconnected business operations and reusable UI components.
- Engineered **Node.js**, **REST APIs** and **MongoDB** data workflows, enhancing backend processing efficiency by **20%** and enabling seamless integration with the **React.js** application.
- Built scalable frontend architecture using **React.js** and **Recoil** to manage complex application state, shared data, and dependencies across multiple business modules.
- Integrated **REST APIs** across multiple business workflows, handling asynchronous operations, dependent API calls, validations, and changing business requirements.
- Implemented **RBAC-based access control** for module-level and feature-level permissions across Admin and User roles.
- Designed inventory and stock-management workflows based on business rules, reducing manual stock-management effort by **25%**.
- Automated invoice, quotation, and report generation workflows using **Puppeteer** and **Handlebars**, reducing manual documentation effort by approximately **40%**.
- Resolved **30+ production issues** across PDF generation, reports, invoices, API workflows, and complex business scenarios, strengthening application stability and reliability.
- Collaborated with clients during **UAT** to validate business workflows, identify issues, and deliver fixes.

Frontend Developer

Aeronpay

January 2024 – June 2024

Jaipur, India

- Created multiple responsive **React.js** modules and interfaces for **fintech services** and business workflows.
- Integrated **REST APIs** across multiple business workflows, managing asynchronous operations, dependent API calls, validations, and application state transitions.
- Implemented complex form-driven workflows with conditional fields, validations, API dependencies, and error handling for different financial services.
- Configured form states, loading indicators, validation feedback, and failure handling to deliver reliable user interactions.
- Optimized **React.js** UI across multiple screens, achieving a **25% reduction in UI-related issues** while maintaining consistent desktop and mobile experiences.

Software Engineer Intern

Snive

June 2023 – August 2023

Bengaluru, India

- Developed AI-powered web interfaces using **React.js**, **TypeScript**, and **CSS** for interactive image generation and segmentation workflows.
- Built the **segment-editing UI** for image upload, preview, point selection, processing, and visualization of AI-generated results.
- Integrated frontend workflows with **AI model outputs**, enabling users to select regions of an image and generate segmented product visuals for business use cases.
- Collaborated with senior developers to **identify and resolve issues** in AI-powered workflows and frontend integrations.

EDUCATION

Bachelor of Science (B.Sc. Computer Science) – **8.7 CGPA**

Banasthali Vidyapith

July 2020 – May 2023

TECHNICAL SKILLS

- JavaScript, Python, Java, C++
- React.js, Redux, Tailwind CSS, Material UI, Git, Microservices
- MongoDB, Node.js
- Data Structures and Algorithms (DSA), OOP, DBMS
- OpenAI APIs, LangChain

PERSONAL PROJECTS

EatWana

Digital Tiffin & Meal Ordering Platform

- Developed EatWana, a **full-stack tiffin/cloud-kitchen** platform using **React**, **Redux Toolkit**, **Node.js/Express**, and **MongoDB**, with **JWT-based** authentication and role-based access.
- Built user-facing features including menu browsing, weekly tiffin plans, cart and **check-out**, **UPI/COD payments**, order tracking, and recurring/one-time **subscriptions**.
- Developed an **admin panel** for menu and order management, **customer management**, delivery tracking, and business analytics, with separate admin/user workflows.
- Implemented supporting features such as PDF invoice generation, **payment handling**, responsive UI, and REST API integration for seamless communication between frontend and backend.

ACHIEVEMENTS

- Cleared 2 rounds of the **Flipkart GRID Hackathon** through the competitive selection process.
- Achieved a rank in the top 300 in the **Women's India Hackathon**.
- LeetCode: 400+ problems solved

PERSONAL SKILLS

- Leadership
- Problem Solving
- Comfortable Working Independently.
- Proactive and self-motivated
